

# Corporation of the Municipality of Brockton

Box 68, 100 Scott Street, Walkerton ON NOG 2V0

The Municipality of Brockton and Veolia Water Canada have entered into a five (5) year fixed fee Services Agreement which details the responsibilities of both parties for the operation, maintenance and management of the municipality's water and wastewater facilities. The Agreement begins on July 1st, 2016 and continues for an initial term of five (5) years ending June 30th, 2021. The municipality may choose to extend the initial term for another five (5) year term.

The Services Agreement specifies the responsibilities of the supplier (Veolia Water Canada) for the performance of services including call-out-services, emergency response, asset management, compliance responsibilities, and performance guarantees. Veolia Water Canada (VWC) will be working closely with Brockton's Director of Operations by way of a structured meeting and reporting protocol as dictated by the Services Agreement.

Brockton will continue to maintain ownership of all land, buildings and permanent equipment currently in place as well as equipment that may be added by future construction projects. Capital replacement projects or significant breakdown maintenance undertakings will be the responsibility of the municipality.

The Municipality of Brockton is pleased to be working with a company such as Veolia Water Canada which has international operational expertise. Negotiations on the new Services Agreement have been very agreeable and have yielded a contract document that will allow both parties to work cooperatively toward a safe and efficient operation of the municipality's water and wastewater facilities.
